## About This Content

Toposim South America for FSX: Steam Edition provides LOD 11 / 19m Multi-LOD terrain mesh for South America, improving the accuracy of the default terrain mesh and offering a marked improvement to the landscape profile.

VFR flying over South America has never been more realistic with lakes, mountains and ground undulations all where they should be.

*Please note this pack corrects the default terrain mesh and does not include any textures.*

This pack includes terrain mesh for the following countries:

- Brazil
- French Guiana
- Suriname
- Guyana
- Peru

- 
- Bolivia
  - Ecuador
  - Colombia
  - Trinidad & Tobago
  - Venezuela
  - Paraguay
  - Uruguay
  - Argentina
  - Chile
  - Easter Island
  - Falkland Islands

Title: FSX Steam Edition: Toposim South America

Genre: Simulation

Developer:

Toposim

Publisher:

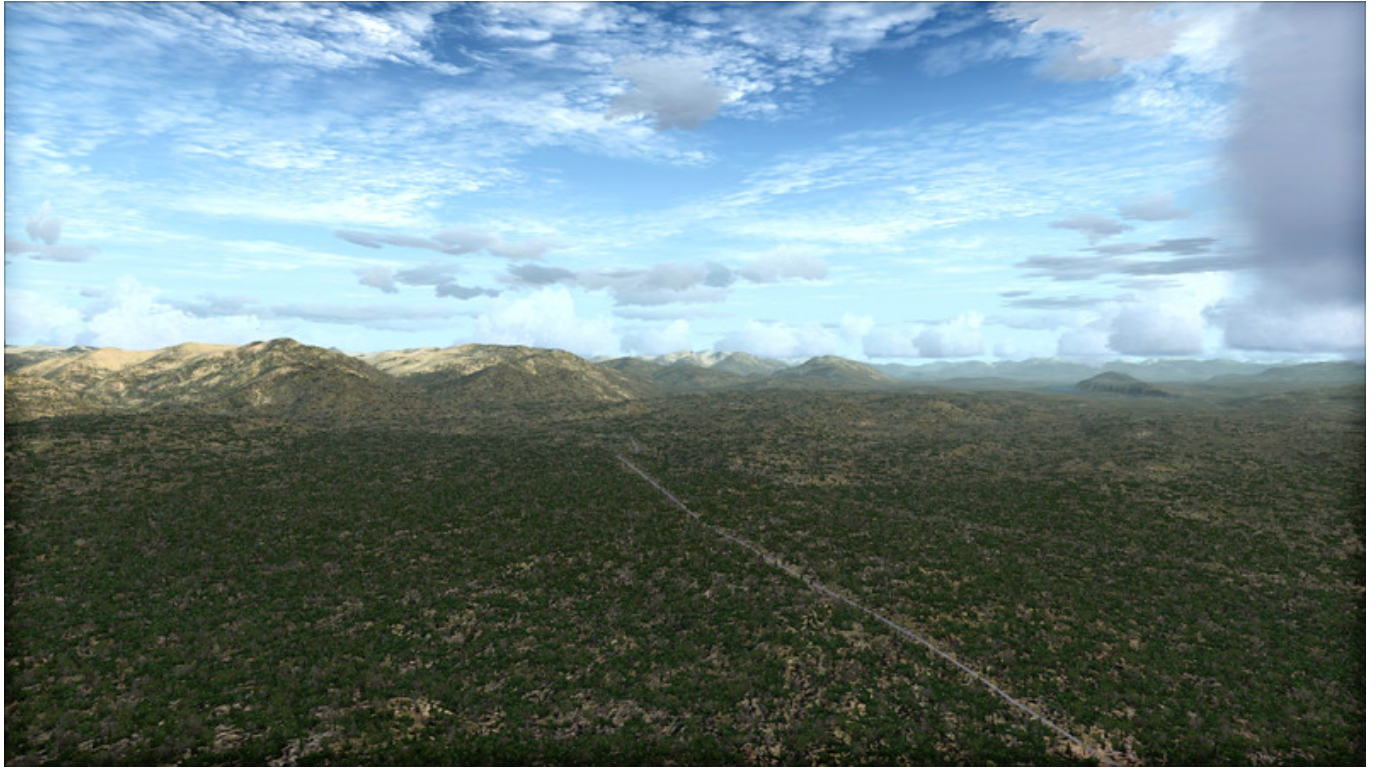

Dovetail Games - Flight

Release Date: 20 Apr, 2017

b4d347fde0

English

---

After installing "FSX Steam Edition: Toposim South America" add-on I can't start flight. I have error message "You computer has run out available memory..." when a flight starts to be generated.

I was looking for the cause of the error. Found that after removing 2 files error disappears:

- TOPOSIM\_DEM\_SouthAmerica\_Peru\_LOD7-11.bgl
- TOPOSIM\_DEM\_SouthAmerica\_Venezuela\_LOD7-11.bgl

Maybe it's not compatible with ORBX global & vector.

Please, fix this problem.. I'm also having the available memory problem with this DLC. I run a pretty beefy machine with a heap of memory as well. This DLC is just broken.. Be Careful it's critical error.

My PC system have 16G Main Ram and Gforce 1050Ti..

but, always OOM Error occur!

I Have another Toposim like Korea...Taiwan...V West Europe...etc.

These DLCs work well.

but South America....Does' work.....

.....

Note: USA Mountain West also Error Program... be careful

If you prefer High Graphic Setting in FSX....South America and US Mountain West couldn't load...
